SITE SOLUTIONS

**INDUSTRIAL CATERING
and LAUNDRY EQUIPMENT**

P R O D U C T C A T A L O G U E

ABOUT US

Ascot has been delivering integrated “Site Solutions” to customers across the African continent for four decades.

Initially a specialist supplier of hostel products within mass accommodation environments, our company later grew its influence into prisons, hospitals, defence force, industrial catering and remote site accommodation all over Africa.

As our reputation as a reliable supplier grew within our chosen markets we increased our product range and we are now able to offer a comprehensive range of products to customers.

We pride ourselves on understanding the needs of our customer, and responding effectively to those needs.

Through a combination of years of ‘hands on’ expertise, a wide range of competitively priced products, logistical support and a suitably qualified team of technicians, we are able to offer a superior, high quality service with standard setting efficiency that is unmatched within the market.

Our Green Initiative

Our future energy supply is not expected to be sufficient to match the anticipated demand and there is increased pressure on costs, we must all focus on green initiatives. We at Ascot are committed to energy saving as a key component of supplying the correct “Site Solutions” and to jointly explore energy saving initiatives with our customers as we all become increasingly environmentally aware.

DESIGN

AutoCAD

APART FROM OUR INTENSIVE PRODUCT RANGE, WE CAN ALSO OFFER YOU A FULL SERVICE ON THE FOLLOWING:

- Full assistance with all your drawing requirements in Autocad for your convenience on Industrial kitchen lay-outs, dining rooms, etc.
- Site visits to anyone of your local and even remote sites to assist with the most economical planning of your requirements.
- Planning of site requirements on existing plants and newly developed areas.
- Expert on site advise and full back-up including drawings , technical support, planning and fully specified quotes and drawings.

PROUD STOCKISTS OF

SCULLERY

UNDERCOUNTER DISHWASHER

Benefits and Features.

Construction

Full double-skin construction with partial double-skin construction for the sides of the wash chamber. Full double-skin construction for the door. The tank has press-moulded bottom and is equipped with a full-width integral surface filter, which, thanks to its large intake size, is virtually unblockable. The wash chamber is free of internal pipes and sharp corners.

User interface

Comprised of four sturdy function keys and a LED display which shows the wash and rinse temperatures. The tank and boiler temperatures can be adjusted, as can the peristaltic dosing units for rinse aid and detergent (if present).

TECH **TOP 38**

HOODTYPE DISHWASHER

Benefits and Features

Construction

Full double-skin construction with thermally-acoustically insulated hood. The hood lifts smoothly and easily with no tight spots, thereby reducing operator fatigue. The hood opening of 46,5 cm is among the highest of products in this market segment. The tank is entirely press-moulded and equipped with a full-width integral surface filter, which, thanks to its large intake size, is virtually unblock able. The wash chamber is free of internal pipes and sharp corners. The rack support is hinged to the back panel to facilitate cleaning.

User interface

Easy to use, reliable and complete, with four soft touch keys and a large backlit polychromatic LCD display. Unlike other dishwashers on the market, it is not just a button; the entire screen changes colour according to the operating status of the machine and the current stage of the wash cycle; this feature, combined with its position above the hood, makes the screen easy to read and interpret even from a distance.

In addition to the operating parameters, such as the temperature of the tank and boiler or the number of cycles completed, the indications provided by the automatic diagnosis system are also displayed.

Information is provided in the form of clear text and icons. It is possible to adjust the tank and boiler temperatures, the dosing of detergent and rinse aid, while our specialised technicians can modify all the operating parameters of the machine.

WHY USE US?

Reliable

Our reliability speaks for itself through the clients we have built up and the partnerships we have formed.

Experience

Our company has 40+ years extensive experience in sales and customer service in the Laundry and Catering Industry.

Product Range

Due to our focus on remote sites we understand the need for as few points of contact for your camp equipment and our extensive product range allows you to deal with us for all your requirements.

Exceptional Technical Backup

Our expert technical team is able to fully support (maintenance and spares) and install all products supplied by Ascot.

Passionate

We are passionate about remote sites in Africa and finding a solution that works for our clients.

Maximize your budget

Our aim is to ensure you get the results required within your budget, and through relationships and communication achieve the goals with our clients. We believe in combining both quality and affordability in our products. There's no reason to pay exorbitant prices when our solutions do more for less.
