Re: Letter of Recommendation on Rental of Industrial Laundry Equipment

We made the decision to rent our laundries equipment from Ascot for a few reasons, they are cost effective, very pleasant team of people to work with and every hiccup that we had before opening our doors they sent out technicians as many times as we called to ensure that we were ready for business when the doors opened and their support afterwards too has been amazing.

I highly recommend renting from Ascot if you're in need of good quality laundry machinery and "after-sales" backup and support.

It's the best decision we've made for our business yet.

Kind regards

Mikayla Webster  
Operations Manager
